Our lives have changed dramatically as a result of COVID-19. And, thankfully, there are plenty of strategies everyone can use to lessen these impacts on children and build their resilience. This three-hour session will describe the potential impacts of the COVID-19 pandemic on children, and what we as adults can do to support them. Participants will also explore their own coping strategies and how they can continue to keep themselves healthy as they support the children in their care.

### Looking for ways to keep your child engaged?

**We are looking for Littles to join our Programs!!**

Now offering in-person programs through In-School Mentoring, Game On!, Go Girls, and Community Based!

The Big Brothers Big Sisters mentoring program provides youth with a role model to talk to and share the experiences of growing up with. Through regular outings, a relationship is developed between the mentor and the mentee, which is built on trust and common interests and is supported by our experienced caseworkers. The result is a life-changing experience for both the mentor and the mentee.

### DID YOU KNOW?

Mentoring is an important way to give youth experience with these essential back-and-forth relationships, developing them into healthy young people better able to deal with and overcome life's adversities.

Our mentors advise and challenge these young people, act as their champions, provide greater consistency in their lives, connect them to broader experiences, opportunities and networks, and provide safe, nonjudgmental environments in which the child or youth can confide anything.

This program is offered free of charge, and within our program we help find activities for our mentees and mentors to do as low cost no cost as possible.

For more information or to enrol a young person visit our website [www.BeBig.ca](http://www.BeBig.ca) or call 403.328.9355
