We continue to use explicit language when describing our students as strong contributing citizens. When positive language is used to describe our community of learners, the students internalize more deeply the positive impact they make on our school community and see themselves as having the characteristics of an active citizen. We will continue to use strength based conversations with our students.

Fleetwood-Bawden will continue to promote and use our F.L.E.E.T. Philosophy to teach our core values.

Staff are focused on new curriculum implementation and on learning how the new resources can support increased student engagement. Another strategy we are using to increase engagement is by highlighting and celebrating student growth and success.

We will be working in collaboration with the University of Lethbridge on an ED 2500 Pilot Project where we will host a cohort of 20 ED 2500 students at Fleetwood from January to April. By utilizing eager pre-service teachers to provide ongoing, consistent, and targeted supports in the areas of literacy and numeracy. Evaluation

Fleetwood is in the process of revitalizing school culture, while sustaining a welcoming, respectful, safe and caring learning environment. With doors remaining locked for security, we see less parents in our building on a consistent and regular basis. We are curious if locked doors have a role in not feeling welcome. We have added fresh red paint to the outside of our entrances. We've added signage to our exterior doors welcoming families into our building. This Fall we removed bulletin boards from hallways, while at the same time enhanced the bulletin boards we have. New visual messages were added to our office area. We are working on making our front office more inviting; and we are reflecting on current practices and processes to ensure we are providing a more restorative, welcoming, supportive and respectful space.

Our Learning Support Teacher and admin continue connect families with outside supports and services when school-based teams are not able to provide the level of support required. (Family Centre, Bridges, AHS, FSCD, etc.) We continue to build capacity of staff on school and community supports available for students and families to access. We have made improvements to our newsletter by adding mental health and community support information and we add helpline information for those in our community requiring supports. We also refer families to our Family Support Workers as an additional and more intensive level of support.

An area of concern is that teachers rate parents at the acceptable level of involvement. As a staff, we will continue to increase parent involvement with decisions about their child's education. We will involve our School Council by engaging in conversations about how we can improve in this area.

For a school of our size we have adequate technology including two computer labs, a classroom cart of laptops and classroom cart of iPads. In addition to adequate access to technology, we also have an incredible music room equipped with a multitude of instruments and a gym with a storage room stocked with equipment. We are slowly purging old equipment and replacing it as needed. This Fall we installed 3 basketball hoops of various sizes, and painted several hopscotch and four-square games on our outdoor paved surfaces. Our students have the opportunity to participate and perform in after-school choir clubs, drama club and grade 5 basketball.
